

EPTRI Central Management Office (CMO) and the Centralised services

FRANCO BARTOLONI – EPTRI CMO

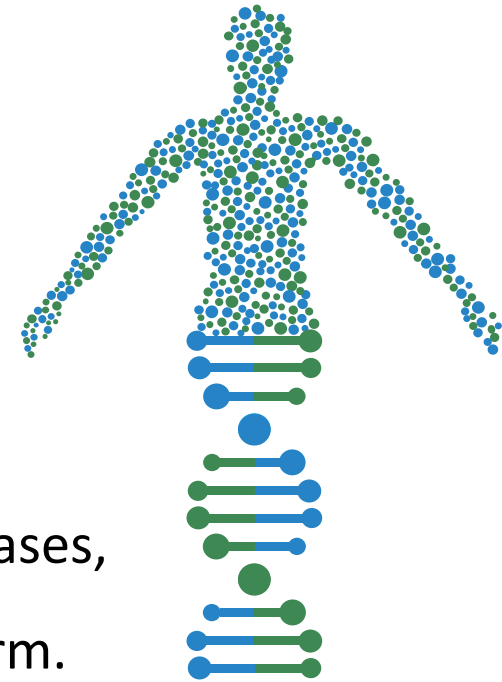

EPTRI General Assembly and Scientific Meeting – BARI – 18/07/2024

EPTRI Central Management Office (CMO)

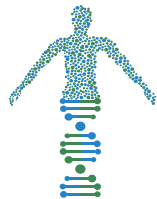

The **EPTRI Central Management Office (CMO)** is in charge to:

- implement the decisions of the General Assembly under the direction of the Board
- conduct day-to-day management
- manage the communication and dissemination activities
- manage EPTRI's services requests
- manage EPTRI databases and IT tools

Identified persons are in charge to manage the IT tools and databases, and to support each TRP including the Centralised Services platform.

Duccio BONIFAZI

EPTRI Centralised services

The **EPTRI Centralised Services** are:

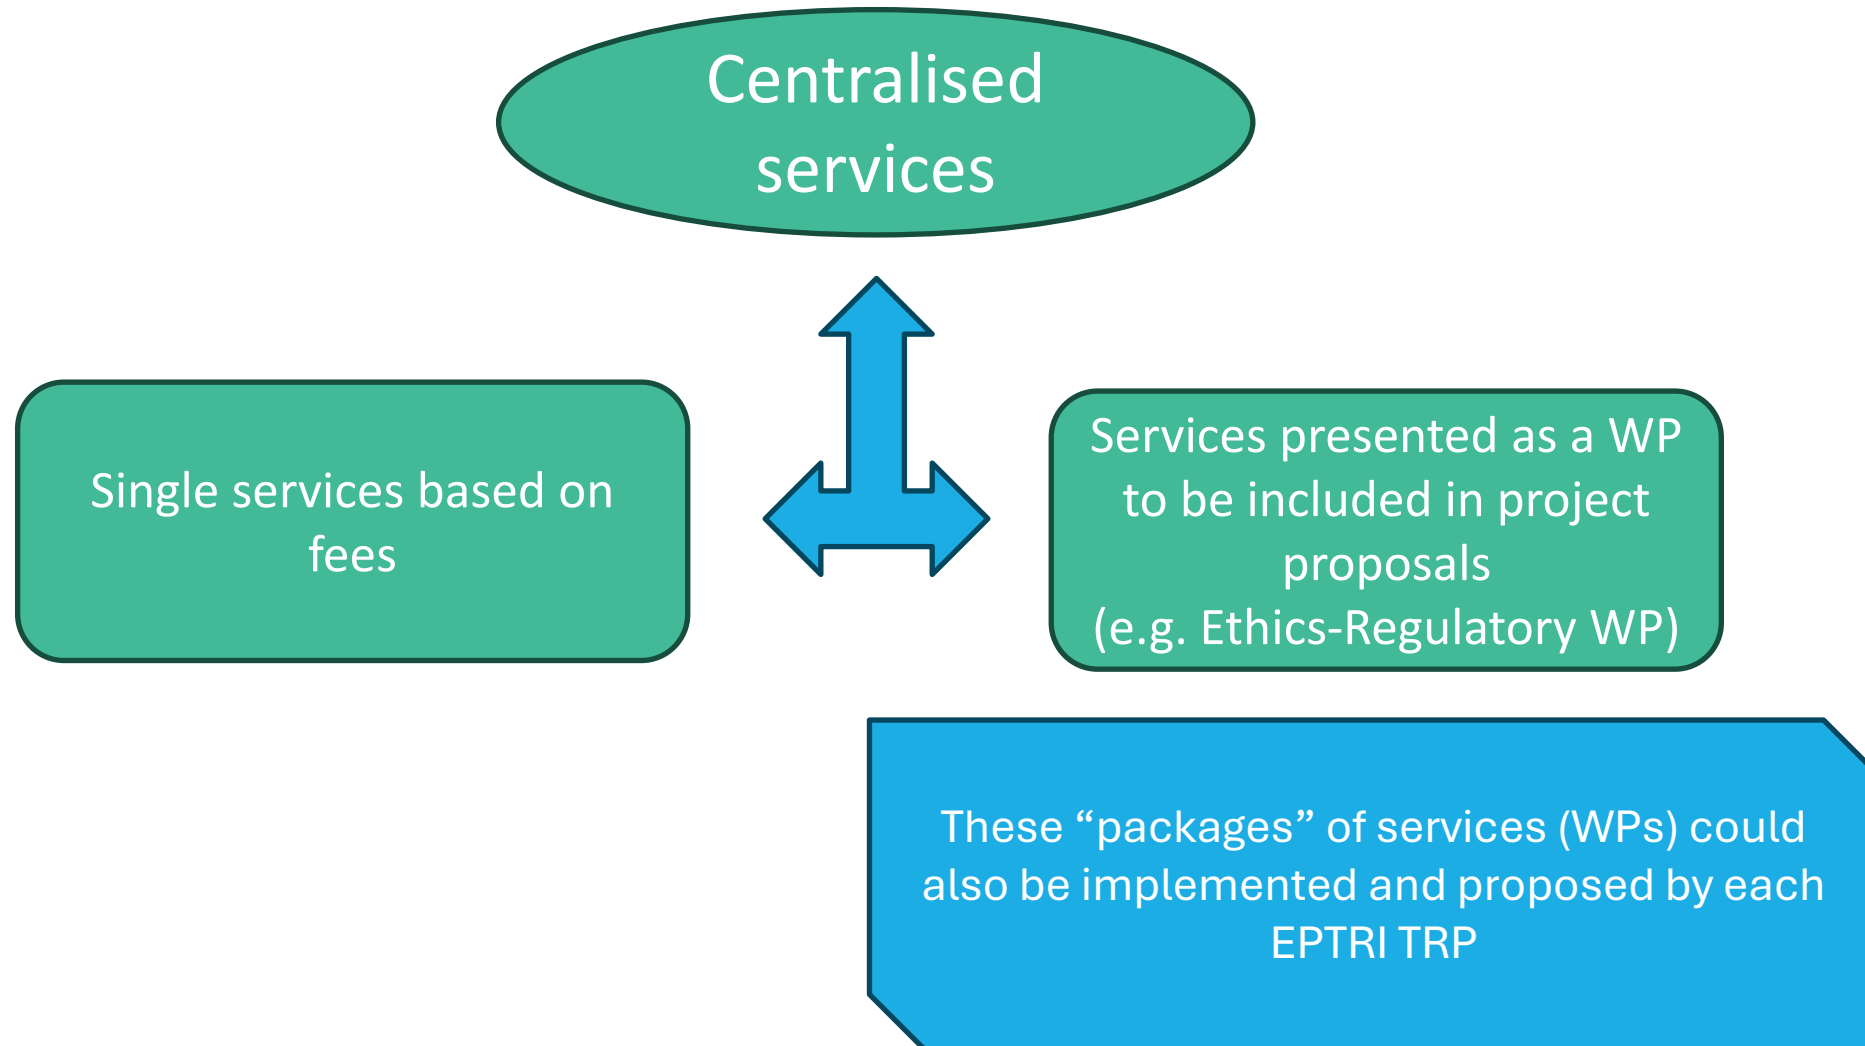

- activities **transversal** to the TRPs aimed to support paediatric research conducted in the translational setting.
- provided by EPTRI with the coordination of the **CMO**, and in collaboration with individual experts from the TRPs, and other RIs, paediatric networks and initiatives.

Current proposal of Centralised services

1. Facilitate access to paediatric patients' cohort related data
2. Consultancy, assessment and document preparation about:
 1. in-vivo / in-silico non clinical study design
 2. in-vivo / in-silico clinical study design
 3. regulatory and ethics procedures
 4. HTA reports for paediatric medicines, diagnostics and MDs
 5. Data FAIRification and data sharing agreement
3. Support in application to (public and private) funding opportunities
 1. Scouting
 2. Partner search
 3. Proposal drafting

EPTRI Centralised services

Delivery management

- Framework agreements with experts (or their institutions) are signed upstream
- Some of the information to be agreed in these agreements:
 - How to engage
 - Hourly cost
 - General availability (time-wise)

These agreements will refer to subsequent specific agreements that are finalized in case of actual provision of services

EPTRI CMO is in charge to negotiate the service(s) provision

New services will be tested during OrphaDev4Kids

ORPHAN
Paediatric Medical
Devices

Access to a Regulatory database

Database of relevant regulatory documents released by the competent authorities at national, European, and international level

Matching service

- Central repository of projects and needs submitted by researchers
- Accessible under agreement
- Players: (e.g. academia, users) with projects and potential manufacturers (SMEs and companies)
