

omnia mutantur, nihil interit

H2020 ID-EPTRI project

Ovidius

metamorphosis

this even has a personal (medical) link to myself

EPTRI is a pan-European initiative involving hundreds of research units gathered together to boost the paediatric research ecosystem and provide services for the development

EPTRI is a Research Infrastructure aiming to promote paediatric research and provide optimal support to facilitate the accruing of knowledge in the many research fields necessary to guarantee the access to high quality and safe paediatric medicines (*and med dev*)
